Height and latitude

Each dot is a town: share of Christmas Days 1950 to 2025 with snow lying, against its height and latitude

Left: colour = latitude (yellow south, purple north)

Right: colour = height (dark low, yellow 250 m or more)

Data: Open-Meteo Historical Weather API (ERA5 and ERA5-Land reanalysis, Copernicus/ECMWF), CC BY 4.0
